Coronavirus update: New contactless services to help keep you safe. Kylie was and is very personable and helpful and when I'm ready I will definitely go see her about purchasing a vehicle. My experience here was very positive. I had Cliff McGuire as my salesman and he was patient, kind and professional while helping me out. Interactions with sales team were great, however the car was a repaired wreck like many of the vehicles on their lot and probably had the worst fitment of a quarter panel that I have seen. Not the end of the world, but a body shop that lets that go out the door is probably making shortcuts elsewhere as well and I'll let someone else can take their chances on it. Sales people were friendly but no one wore masks which was very troubling, decided not to go back. Brent was nice but the Range Rover was a piece of crap.. Extremely welcoming letting my 19 year old son test drive the car he wanted unlike other car dealers treated him like a thief worked hard and had in his pocket to lay down on a car. They took time with him as this was his first time buying a car. Great customer service and the car run smooth and extremely clean. Shelby was a very knowledgeable and sincere, sales associate, helped us with price and financing. My experience was very positive. I was waited on promptly and encouraged to take a test drive right away. They appraised my trade-in while I was on my test drive and was prepared with an offer when I returned. The negotiations went quickly from there and I received what I felt was very fair value for the trade-in and a good overall deal. I called and they said the car was available. I drove all the way from Pittsburgh And the check engine light was on and car was making loud noise. I was told by salesman Jim they would fix it if I put a deposit on the car. This was a great purchase. Great guys! Honest and responsible. The car is in great shape, just as it was described by the dealer. The dealer answered all of my questions, he was very courteous and accommodating with the schedule and my requests. I would recommend Cars KC to any of my friends. We had a great experience, no complaints. I purchased a car for my daughter after test driving it, and they delivered it. They have me good service i ask a question they gave me straight forward answers just the way I like to bad I couldn't get this beautiful car. Fantastic service! I would recommend Fury Motors and Ben! Ben made the entire process fun and flawless! Very negative experience. This felt like bait and switch. Agreed on price and trade, then lowered one and raised the other. Terribly slow at getting back to you. One of the worst experiences I have had with a dealer. Very pleased. Love this vehicle. My son in law just bought a pickup from you and he had nothing but good things to say also. This is an exceptional Auto Broker The professional service of Todd was exactly what any car buyer would want He handled all details from start to finish!! Great team! I was in and out in 2 hours with an amazing car. I have purchased many cars from many different places over the years. Some of those deals kept me up at night since they came attached with a laundry list of problems. These guys were upfront and honest, and I walked away with a dream deal for a dream car, they put every other dealer I have dealt with to shame. I highly recommend these guys, I cannot thank them enough! Andrew G. I had either never seen or never payed attention to the c-class, so this was an enlightening and educational observation. Great looking car, and seems to have quality features. Read more. It has many features. It is a great value, as it has low miles and its clean. I compared it to Fiat, Toyota, and others. I got a great deal!!! Why Use CarGurus? Coronavirus update: New contactless services to help keep you safe. I made an appoint several days earlier to my visit to view a particular car. A Mercedes e cdi Cabriolet I was shocked to find the car dirty and not valeted. It had bad scratches and a rip in part of the interior. The sales team were unfriendly and unobliging and I was sorry I had made a mile trip to go look at the car. I will not return. Came back to me quickly and arranged test drive of car, overall good experience and no pressure felt to buy, knowledgeable staff. Very professional. Received a call from James within an hour of making the request. James was fantastic and went the extra mile to make sure everything was carried out and done to make sure the car was at its best. Very professional would highly recommend. Despite setting up the viewing in good time, I was left with a feeling of unpreparedness as they presented the vehicle with scuff marks on the interior that could easily

have been taken care of. Small details are important to customer experience. Very good communication, video's of the car good and had the car delivered to my house which is over 2 hours away. Fantastic service. Form my Email. A very honest chap called me back. Explained someone had already paid a holding charge. But would call me back later in the day to confirm. To his word a call later confirming that the car was sold. He Then took my full details and will call me when another car similar comes up. Booked an appointment to view the car. Upon arrival I was advised the car I wanted was sold to another customer just prior to my visit. However, I was offered a similar, younger model which I have now purchased! Very pleased with Sales Executive Tony who went above an beyond to ensure I was not disappointed. The contact was excellent, five star service, the only complaint has to do with the miles the car has. On the website it said that the car had 14 thousand miles and in reality it had 18 thousand miles. Happy with this dealer we bought the car gets delivered Monday adi been great all the way through. Received a good deal in part exchange for my car towards the Mercedes. Did the deal over the phone and arranged to pick up my new car at the weekend. All good. But you know, you might not be able to afford a six-figure executive sedan with facial recognition and a fingerprint scanner. If so, you might want to consider the Mercedes-Benz C-Class. Available in sedan, coupe and convertible body styles, the C-Class is a versatile small luxury car that offers an appealing mix of comfort, performance and top-notch construction. But this current-generation C-Class â€" it dates back to the model year â€" is getting on its years, and it lacks the newest Mercedes infotainment interface. As such, the A-Class and the E-Class â€" the two vehicles that bookend the C-Class in terms of price and size â€" feel more modern and up-to-date. Check out our Edmunds Expert Rating for the full rundown of this Merc's hits and misses. The Mercedes-Benz C-Class is a small luxury car sold in sedan, coupe and convertible Cabriolet body styles. Regardless of engine, a nine-speed automatic is the only transmission available. C and C 4Matic The base C and C 4Matic are virtually identical; the only difference is that the former features rear-wheel drive and the latter is equipped with all-wheel drive. Standard features include:. The C is available with a wide range of option packages and stand-alone options. These include:. Other additions include:. On top of AMG C 43 content, it adds:. Also included are:. I did some pretty extensive research in this class, including the i xdrive and A4. I was very close to taking a great deal on the 3 Series, but in my heart I knew I liked the Mercedes more. It's much smoother, better built, and has better technology. I felt like the i's ride was a little too busy for me. It always begged me to drive fast, which may have been great in my 20s, but now I'm "more mature" haha. The C gives me the luxury all the time and the sportiness when I want it. Give it a try, you won't be disappointed. Write a review. See all 2 reviews. So long has the C-Class versus BMW 3 Series rivalry lasted that pictographs depicting the struggle were found in an unearthed Egyptian tomb believed to be built during the 12th dynasty. The most recent volley in this eternal conflict was fired in when BMW last redesigned the 3 Series. The 3 Series and the C-Class are pretty evenly matched but stand as only midpack models in our rankings of small luxury sedans. Audi is content to let Mercedes and BMW duke it out while its own compact quietly sits near the top of our rankings of the best small luxury sedans. The Audi A4 was redesigned in , but constant updates mean that every new A4 is better than last year's. We commend the A4 for its tech-forward interior design, high levels of comfort, and roomy, adult-friendly cabin. With standard all-wheel drive and a smattering of included driving aids, the Audi offers surprising value too. It's smaller and comes with front-wheel drive by default, but we think the A-Class bests its bigger brother in a variety of ways. Available styles include C 4dr Sedan 2. Consumer ratings and reviews are also available for the Mercedes-Benz C-Class and all its trim types. Overall, Edmunds users rate the C-Class 5.

Is it better to lease or buy a car? Ask most people and they'll probably tell you that car buying is the way to go. And from a financial perspective, it's true, provided you're willing to make higher monthly payments, pay off the loan in full and keep the car for a few years. Leasing, on the other hand, can be a less expensive option on a month-to-month basis. It's also good if you're someone who likes to drive a new car every three years or so. Popular searches. Pros Interior is impeccably crafted Many available cutting-edge features A range of high-horsepower engines available Cons Clumsy touchpad infotainment interface C 's optional sport suspension rides too harshly Limited cargo space What's new A The C-Class delivers respectable performance, impressive comfort, and a luxurious cabin loaded with advanced technology. A wealth of options means you can tailor the car to taste, but those options can add up quick. At a certain point, the Benz's traditional rivals start to look like better values. But there's no denying the Benz's attention to quality and the appeal of its elegant, old-school luxury feel. The C-Class we tested, the C , places few demands on the driver. It makes sufficient power for a luxury sedan with a base engine and, when equipped with the optional AMG sport suspension, offers exceptional handling. You also get responsive steering and unflappable braking. Acceleration feels strong. The C has an Edmunds-tested mph time of 6. The nine-speed automatic transmission shifts smoothly, but it can seem a little hesitant to downshift when you're driving in the default Comfort drive mode. You can liven it up with the Sport mode, but then the shifting can seem overcaffeinated. It's unfortunate that the C scores so poorly here. We like how the front seats are supremely comfortable and offer a broad range of adjustment for all body types. The climate control system is full-featured and effective too. But our test car had the optional AMG sport suspension coupled with inch wheels. So equipped, the C suffers from an overly firm ride. There's a constant level of jarring vibration that will make you question whether the car is, in fact, a Mercedes-Benz. The engine too comes across as unrefined, and it sounds buzzy when you lay into the gas pedal. An elegant center stack with only the most necessary controls adds to the C 's classy vibe. Unfortunately, the price for this minimalist design is that some functions lack physical buttons. The only way to access them is through menus in the infotainment display screen. Getting in and out is easy thanks to wide door openings and a tall enough ride height. It makes entry feel more like sliding in than dropping in. There's plenty of room up front, and the wide range of seating adjustments ensures drivers of all sizes can find a comfortable and commanding driving position. On the downside, it has less rear legroom and footroom than some rival luxury sedans. The C 's You can control the infotainment system in many ways, including touchpad controllers on the steering wheel and a more traditional dial-and-button array. It's overkill, but all the controls work seamlessly, and many drivers will appreciate the choice. The optional Burmester sound system is excellent, and

the optional digital gauge cluster is worth the expense. It puts the status and control of several functions navigation, audio, phone in your direct line of sight. The driver assist features work well and are well calibrated, but they're a pricey option. The C 's trunk A low bumper height and a fairly wide trunk opening make it easy to load luggage and gear. But the trunk is deeper than it is wide, and there's no compensating for the lack of overall space. The cabin doesn't offer a lot of places to store your small items either. Got kids? You won't have trouble finding the lower car seat anchors and rear tether points. But because of the C-Class' limited rear legroom, installing a bulky rear-facing seat might be a tight squeeze depending on where you position the front seats. We tested the C with all-wheel drive. We recorded an underwhelming 24 mpg on our mile mixed-driving evaluation route. A base C-Class is competitively priced. But adding options quickly pushes the price skyward. Many of its options were nice but not essential â€" and in the case of the AMG Line package, with its stiff suspension, and the optional inch wheels, we'd argue detrimental. So for an entry-level luxury car, build quality is exceptional. There's an impressive attention to detail and fit and finish in this mass-produced luxe sedan. Panel fit, controls, trim and brightwork are all very solid. The C can range from mild to wild, the latter especially when equipped with the optional AMG package. We're not sure it's worth it since the ride comfort is a significant downgrade from what we'd consider to be the peak Benz experience of a competent, coddling ride. The AMG package can be a thrill for some drivers, although for those drivers, we'd recommend simply moving up to the C 43 for more power and overall sportiness. Absent the stiff suspension and ride, though, the C-Class remains a kind of old-school luxury experience, with the benefit of modern tech, design, connectivity and driver safety. The margins between its rivals are thin, but the Benz still exudes a bit more elegance and grace. Any of the AMG models will give you the thrills you'd expect of a sport sedan, but consider sticking with the standard C It has a decent amount of power and the money you save with it means you can spend more on the C-Class' optional extras if you want. The Premium package is a good place to start. The Driver Assistance package is comprehensive without being overly pricey, though it also requires adding the Multimedia package. Standard features include: Turbocharged 2. Can also react to traffic signs and set speed Lane departure mitigation warns you of a lane departure when a turn signal isn't used and can automatically steer to maintain lane position Lane keeping system makes minor steering corrections to help keep the vehicle centered in its lane Evasive steering assist enhances the forward collision mitigation system with steering-based collision avoidance Blind-spot intervention automatically steers the car back into its lane if you try to change lanes while a car is in the vehicle's blind spot Panoramic sunroof Heated steering wheel Ventilated front seats Leather upholstery Head-up display displays important information in your sight line onto the windshield Wireless charging pad AMG C 43 The AMG C 43 turns up the performance wick with a turbocharged 3.
